CREDIT CARD FRAUD DETECTION

The challenge is to recognize fraudulent credit card transactions so that the customers of credit card companies are not charged for items that they did not purchase

Import Libraries

In [1]: import pandas as pd
 import numpy as np
 import matplotlib.pyplot as plt
 import seaborn as sns
 from matplotlib import gridspec

Load The Dataset

In [2]: data=pd.read_csv(r'C:\Users\user\Downloads\creditcard.csv.zip')
 data
